

This sheet should be used to encourage reflection and discussion on the project work. The copies should be kept by the teachers and students ready for completion at the end of year two. Pupils can be given the support that teachers feel is necessary and a whole class discussion would be recommended prior to completing the form to engage the children with the main ideas.

REFLECTIVE QUESTIONS FOR PUPILS	Start of the project responses (Year One)	End of the project summary (Year Two)
What skills do you already have working with paper?	<p>I can make paperplanes! Make origami things. Make flowerpots. Fold things. I can draw and write on it. I can do origami a little bit. I can make craft: planes, cards, bird, ship. I can make craft: cards, christmastrees from old newspapers, snowflakes.</p> <p>I know that paper burn and it is made from wood. Paper can cut with scissors. Paper is made from wood. I know that paper can recycle. I know that paper is made from wood and you can write on it..</p>	<p>Now I know that paper can be also made of stone. I know more things, that can be done of paper. I know how the paper are made of wood and have made some things in origami technic. I can reuse old paper for making christmas trees.</p>
What do you know about stone paper?	<p>Nothing. Our last project book was made from stonepaper. I think its very hard paper. It doesnt contain water and wood.</p> <p>I have heard about it, because Erasmus+ book was madeof stonepaper. It is made in China. It doesnt get wet and it is smooth. Its not decay in water. You can recycle it eternally. Producing it dont need water. It is made from stone, it is strong.</p>	<p>I know now that because it doesn't contain water, nothing happens when the paper get wet. Only place where stonepaper is made is in China. Stonepaper has been used for making newspaper. Thanks tot he experience made in our school, it got provement that stonepaper won't decompose even it is buried down. It can be recycled over and over again.</p>
What do you think you will have learned after 2 years of work?	<p>What paper does contain? How paper is made? What was written in the first paper? I want to learn make things of paper. When was made first paper? How to make paper yourself? Where and when was made first paper?</p>	<p>I know now how the stonepaper are made. I know about different types of paper. I learned to recycle many common things, also paper. I have learned a basics of coding and a bit of english also. Now I know that stonepaper really is so strong as it</p>

	<p>I want learn different recycling opportunities.</p> <p>I would like to know different paper types and who invent the paper.</p>	has been told.
List three ideas of the project that you are interested in and want to understand:	<p>From what was made the first paper?</p> <p>I want to learn origami!</p> <p>How much paper is on the world?</p> <p>I am interested of learning how to make paper sculptures, decorations, accessories, bags, jewelry.</p> <p>I want to do a house of paper.</p> <p>I want to visit papermill.</p> <p>I want exact introduction how to make stonepaper.</p> <p>How to save paper more better?</p>	<p>It's interesting that due to stonepaper resistance, it still hasn't got wide-spread using.</p> <p>There should be more promotions to get the stonepaper more popular.</p> <p>I would like to make stonepaper myself.</p> <p>Now I can appreciate the paper more and don't waste it so much.</p>
What could we do in our project which could change things for the future?	<p>We invent the new paper.</p> <p>We recycle paper more!</p> <p>We will invent the paper, what decay in nature only one day!</p> <p>School will have trashcans for different waste.(for paper).</p> <p>We all know much more paper recycling ways.</p> <p>We use much more old papers and newspapers in lessons.</p> <p>We should have different trashcans.</p> <p>We use paper decorations repeatedly.</p> <p>We gather old paper like old books, wordbooks, notebooks.</p> <p>We reuse paper more.</p>	<p>The project made me think about the amount of wood and water that is used to make paper. So we should recycle paper to keep water and wood.</p> <p>We should recycle paper more. Today's electronic lets us to use paper less than earlier.</p>
