

Educative paper-free hiking day

J.V.Veski nim Maarja-Magdaleena Elementary School

Every group had a telephone with a link to the game

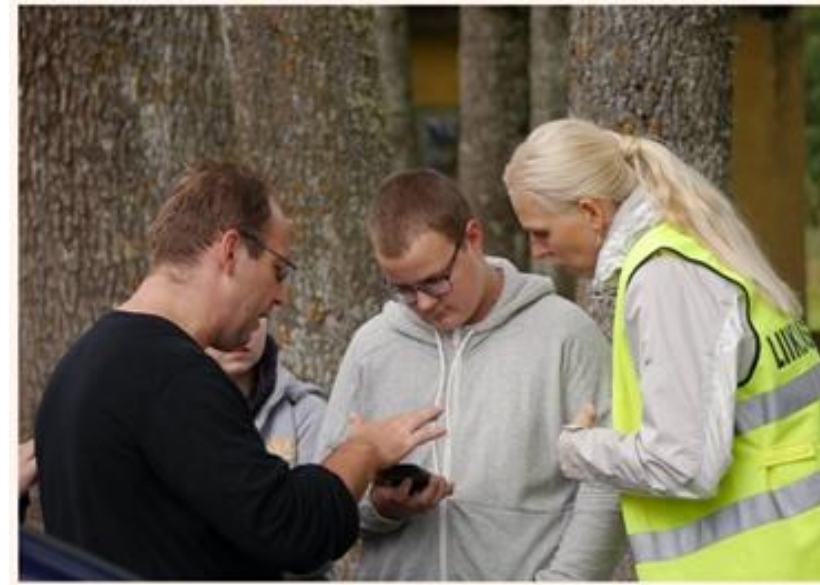

Students used its map to navigate

In every check-point, a question appeared on the phone screen

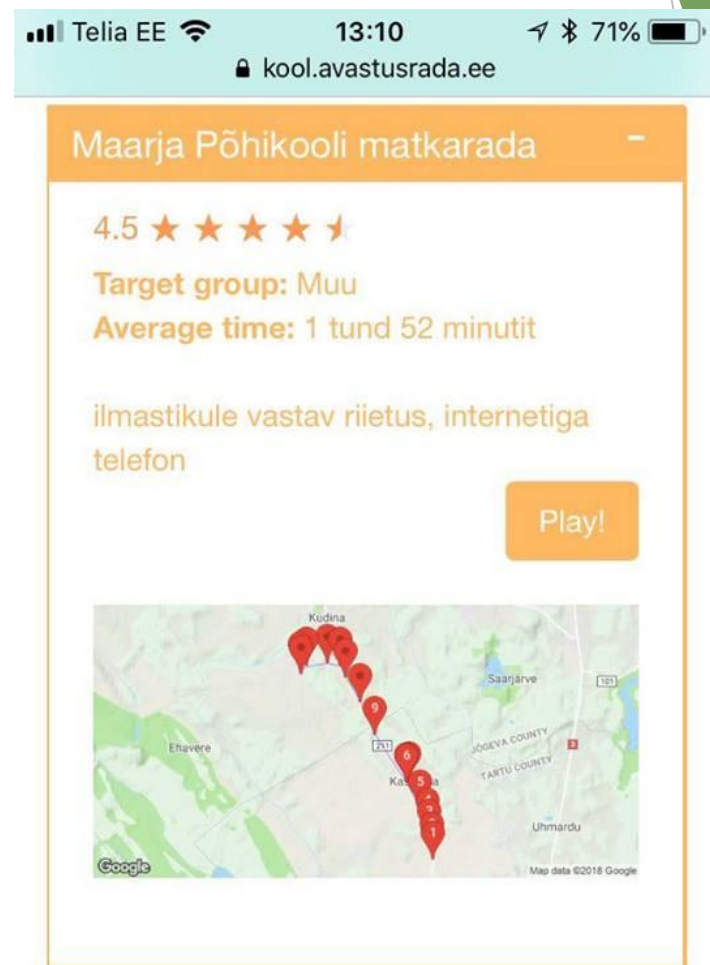

- ▶ Every once in a while there was a fun paper-themed question or a task, in all 16 of them. When the task was done, the group could continue the hike.
- ▶ Examples:
- ▶ 4. Where was paper first produced in Estonia? In Tartu
- ▶ 4. Kus valmis esimene eestimaine paberileht? Tartus

The hike was 6 km long and took almost 2 hours to complete

It was exciting and fun!

In this page are Discovery Trail for school education. Click on the markers on the map to choose the trail or select suitable region and school from the menu.

Minimum requirements: operation system iOS (version 8), Android 4.4 or Windows Phone 8.1. You'll also need at least 3G internet connection
